Federal Bureau of Investigation Electronics Technicians

OFFERING EXCITING CAREER ADVENTURES.

The FBI is currently seeking Electronics Technician (ET) positions throughout the United States.

Interested individuals should possess a solid understanding of electronic theory. Additionally, individuals should have a basic knowledge of data networks, RF theory, and electronic troubleshooting skills.

The FBI ET Program is divided into the following major disciplines:

- Radio/RF Systems
- Data Networks
- Alarm Systems
- Access Control Systems
- Video Security Systems
- Tactical Programs

Interested individuals should, at a minimum, have either received an Associates degree within the last 6 months or plan to graduate in the near future. Additionally, candidates must be a US citizen, possess a valid, unrestricted driver's license, have good credit, and have not used any illegal drugs (including marijuana) within the last 3 years. Qualified candidates should email a resume and qualifications to richard.ethridge@ic.fbi.gov

All candidates will be required to take a polygraph test, drug test, and complete a full investigative background.

Visit www.usajobs.gov for a complete description of the Electronics Technician (ET) position description and other exciting opportunities.
